Optical Design/Color process

Research and Development Innovation

Functional Technology

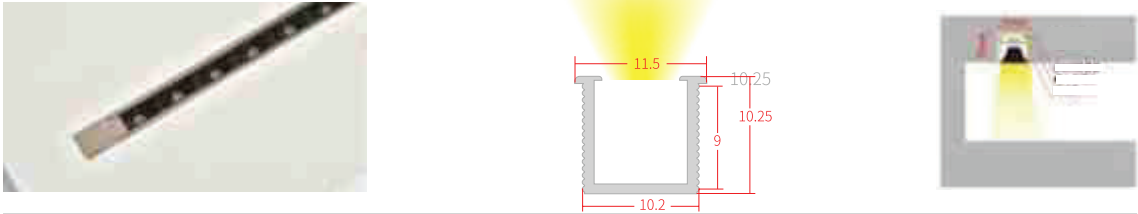

Product Parameters

*Note: Length can be customized according to requirements (maximum 300cm, can be cut arbitrarily)

Product Model	Product Size	Lamp Power	Color Rendering Index	Aluminum Material Thickness	Board Thickness	Accessory Matching	Constant Voltage Drive	Application Range	Installation Method
A-1010a	300cm	8W/M	CRI 97	1.0mm	18 cm	Reflective Cup Aluminum Plug	Constant Voltage Drive DC12V	Shelf Cabinets	Embedded

Installation Instructions

**Note: Shelf depth minimum retraction 20mm (unit: mm)

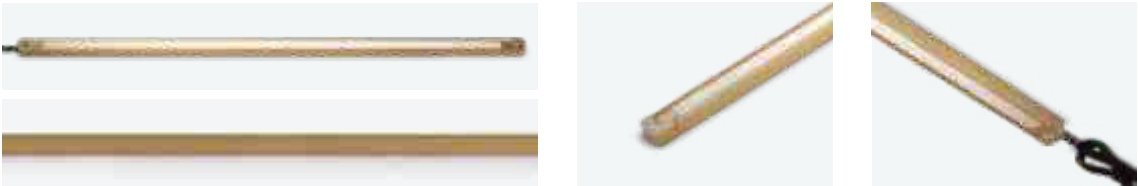

A-0609 Cabinet Side Light

Optical Design/Color process

Research and development innovation

Functional Technology

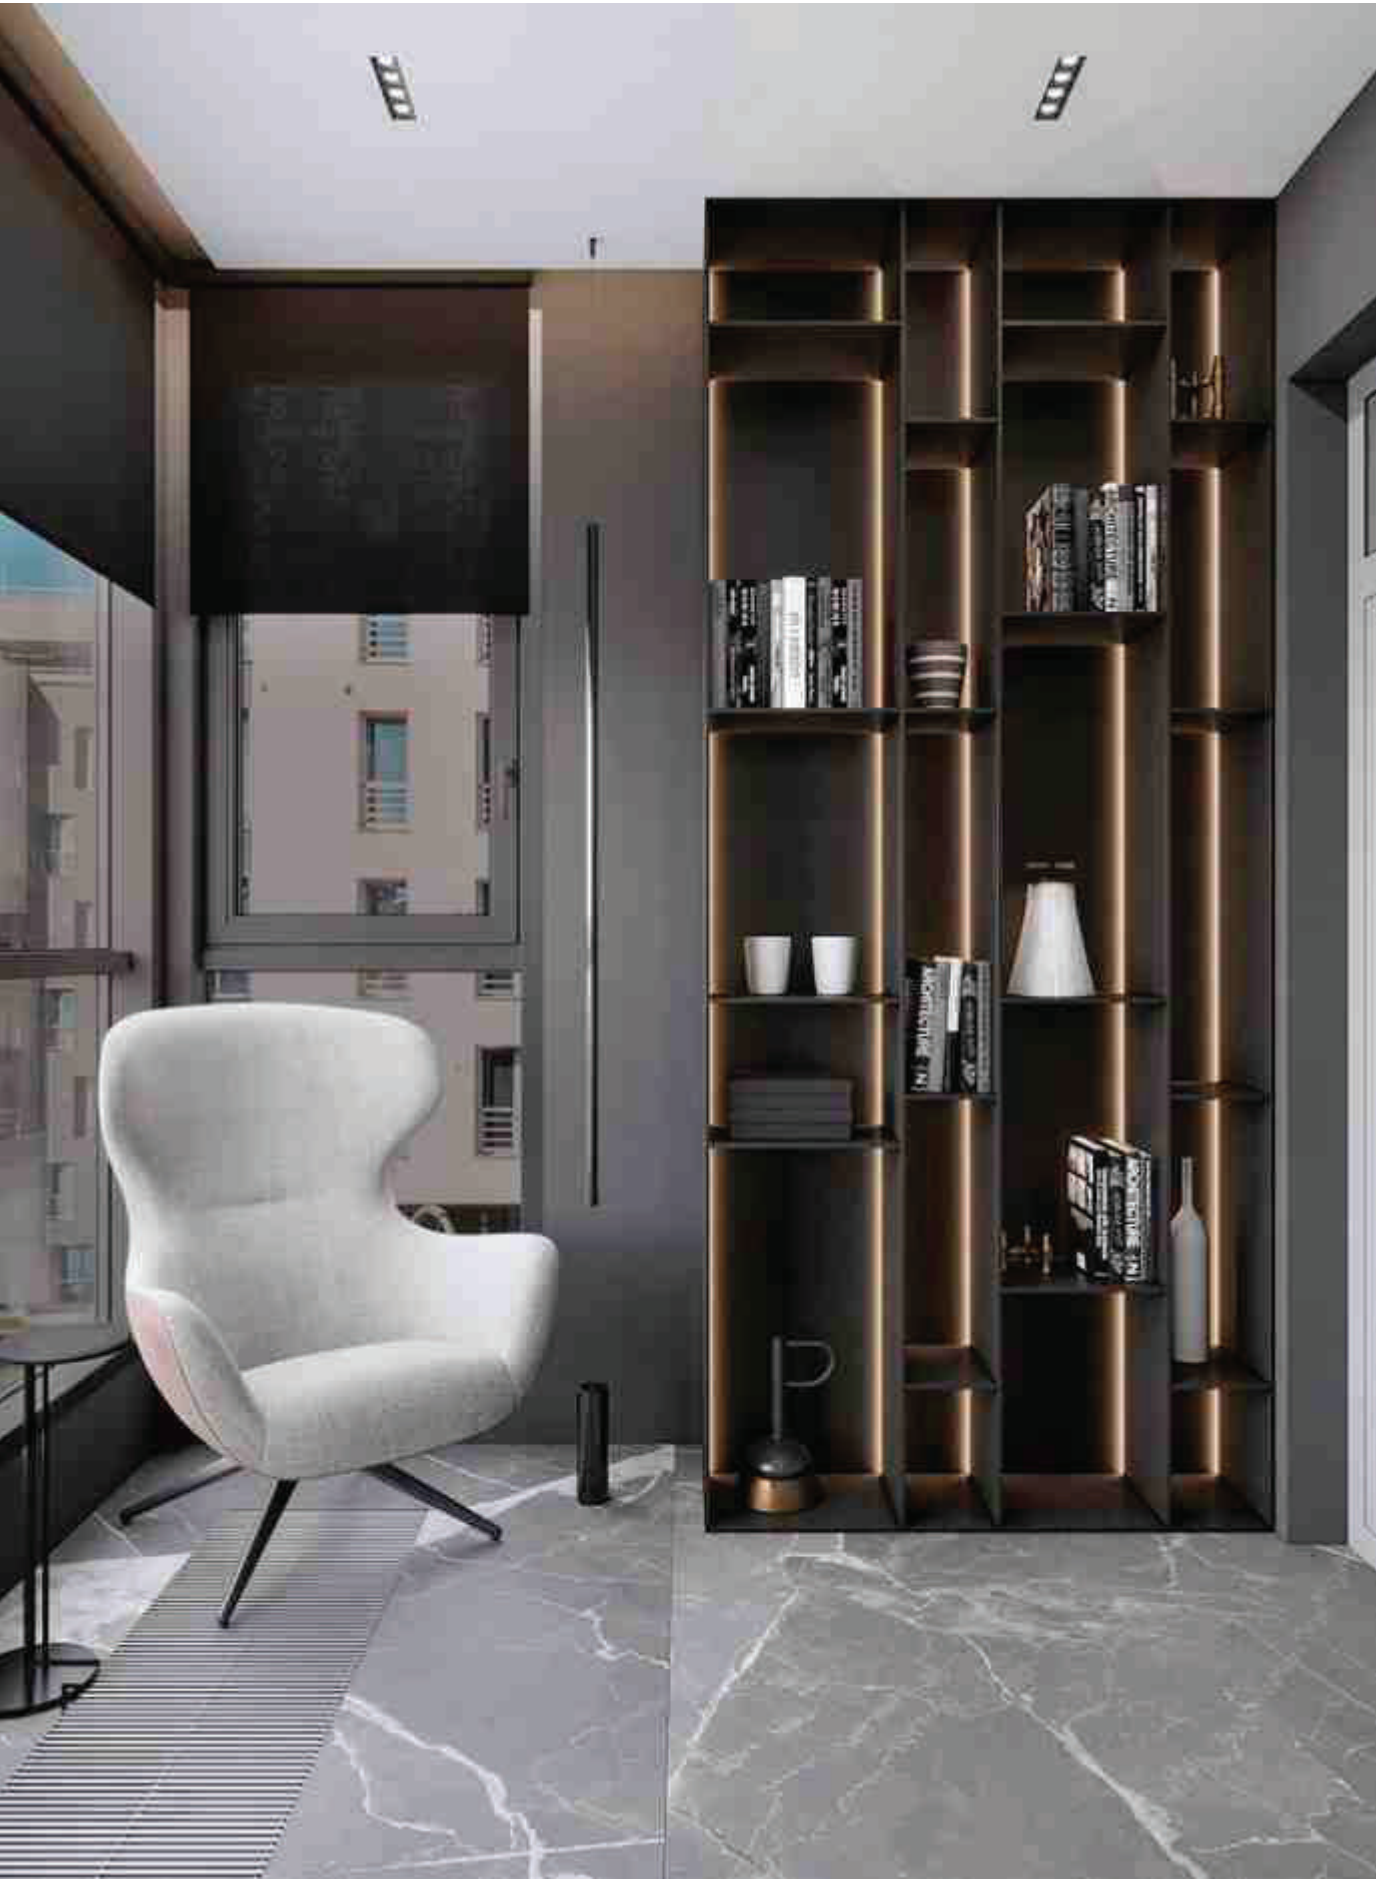

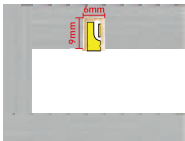

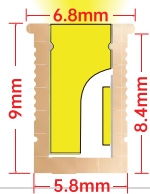

Product Parameters

*Note: Length can be customized according to requirements (maximum 300cm, can be cut arbitrarily)

Product Model	Product Size	Lamp Power	Color Rendering Index	Aluminum Material Thickness	Board Thickness	Accessory Matching	Constant Voltage Drive	Application Range	Installation Method
A-0609	300cm	8W/M	CRI 97	0.75mm	18cm	Silicone Lampshade Aluminum Plug	Constant Voltage Drive DC12V	Shelf Cabinets	Embedded in Shelf

Installation Instructions

**Note: Shelf depth minimum retraction 20mm (unit: mm)

A-1010b Cabinet Side Light

Optical Design/Color process

Research and development innovation

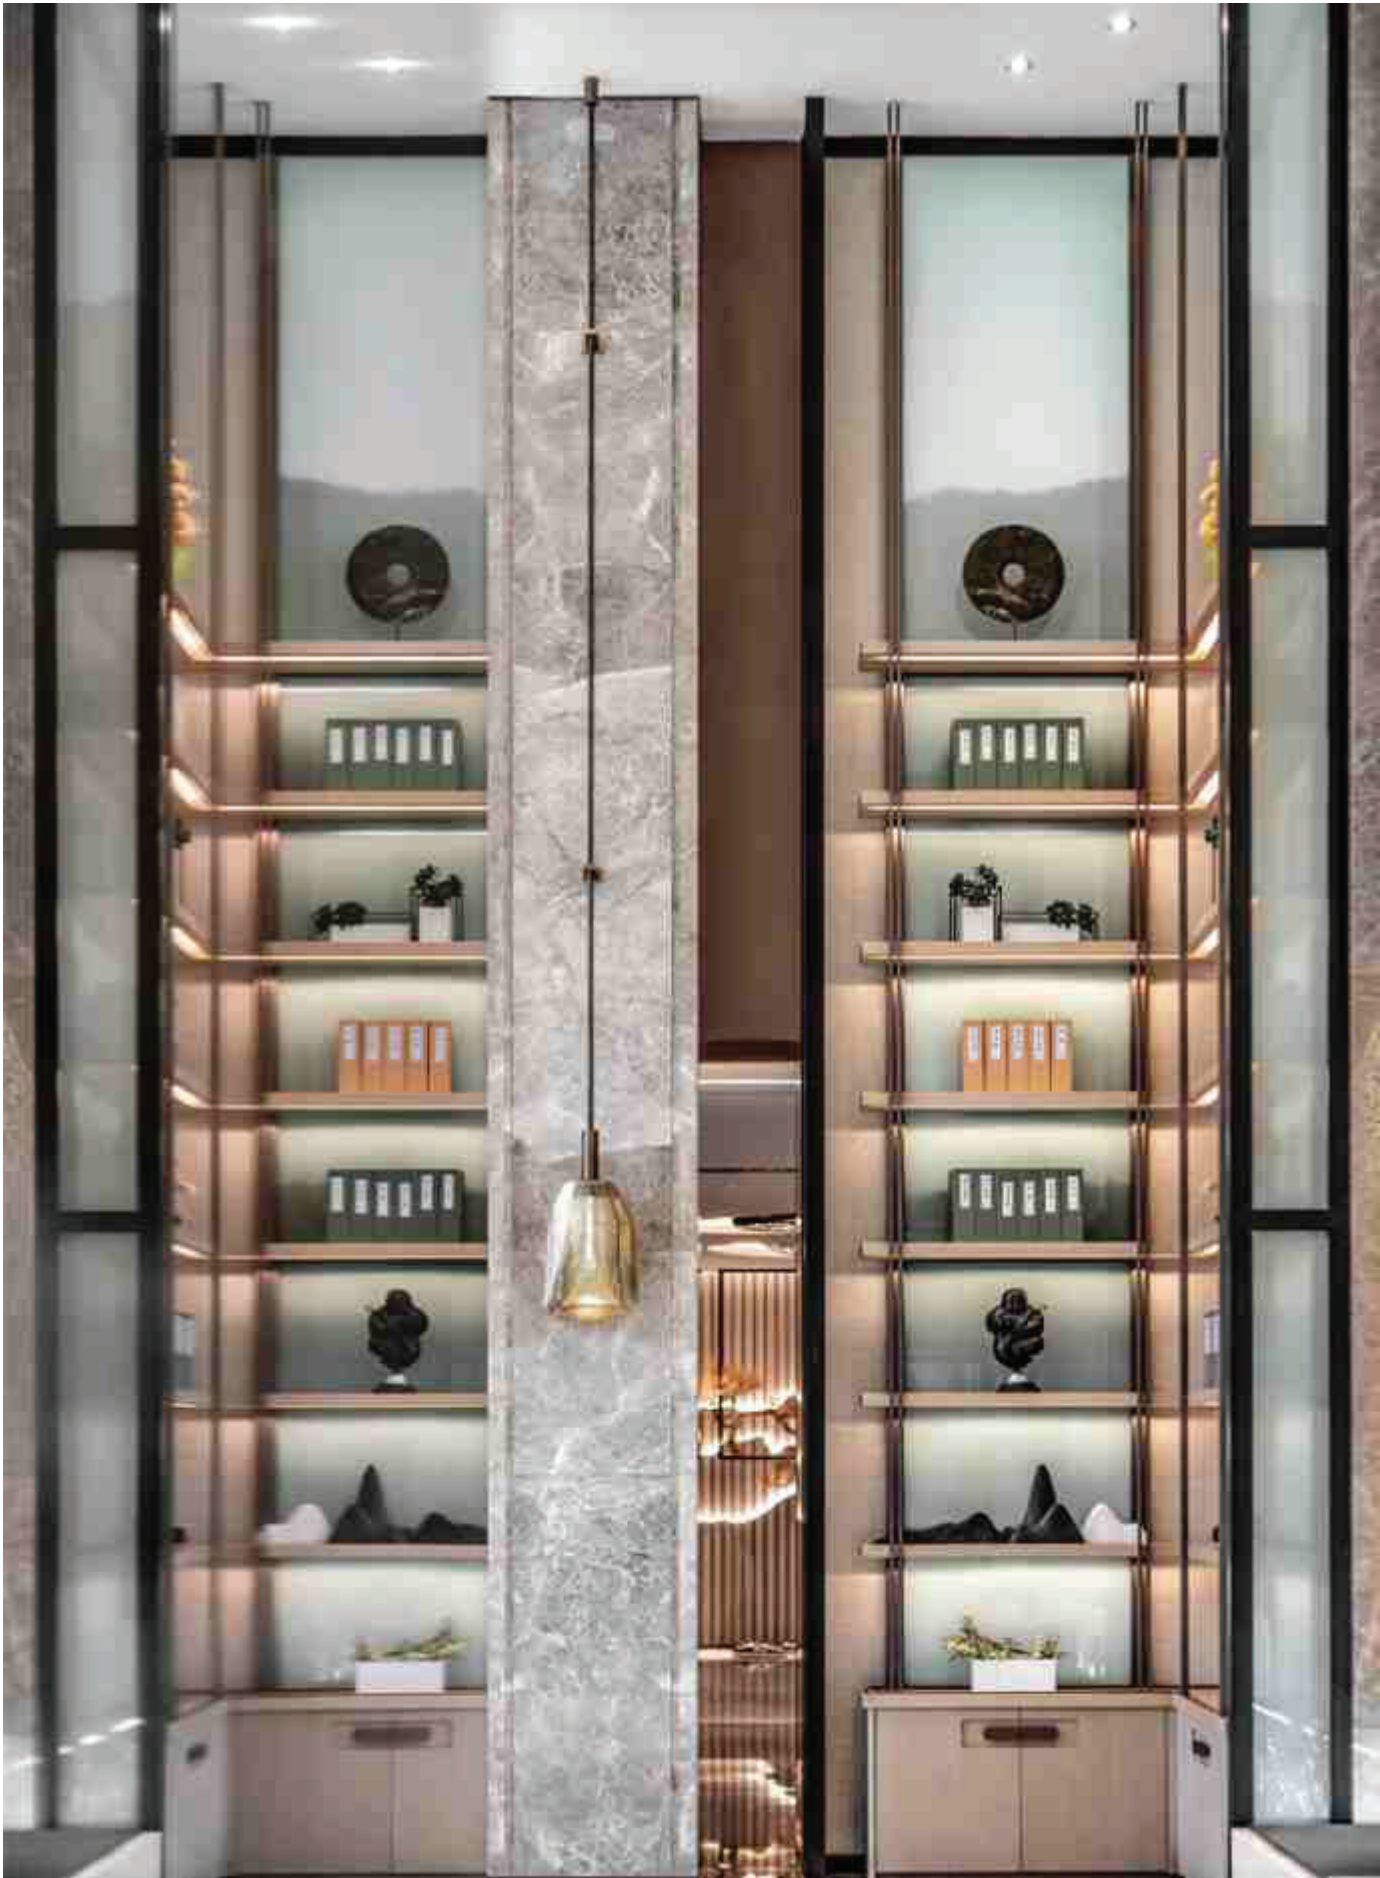

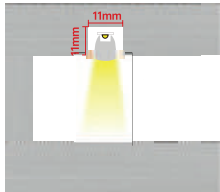

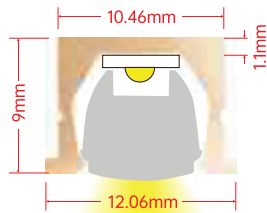

Functional Technology

Product Parameters *Note: Length can be customized according to requirements (maximum 300cm, can be cut arbitrarily)

Product Model	Product Size	Lamp Power	Color Rendering Index	Aluminum Material Thickness	Board Thickness	Accessory Matching	Constant Voltage Drive	Application Range	Installation Method
A-1010b	300cm	8W/M	CRI 97	0.75mm	18cm	Aluminum Lens Cap	Constant Voltage Drive DC12V	Shelf Cabinets	Embedded in Shelf

Installation Instructions **Note: Shelf depth minimum retraction 20mm (unit: mm)

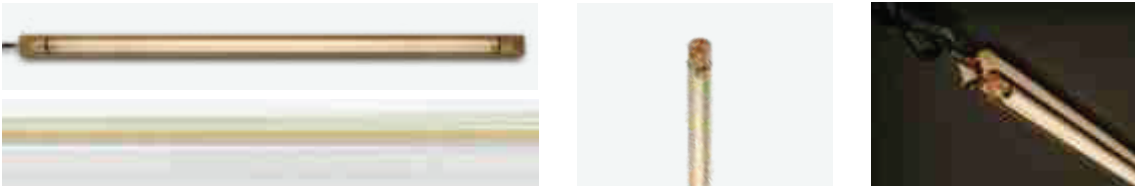

B-1310a Angle adjustable

Optical Design/Color process

Research and development innovation

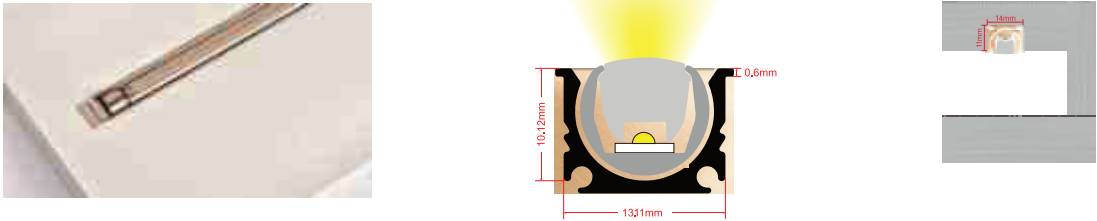

Functional Technology

Product Parameters *Note: Length can be customized according to requirements (maximum 300cm, can be cut arbitrarily)

Product Model	Product Size	Lamp Power	Color Rendering Index	Aluminum Material Thickness	Board Thickness	Accessory Matching	Constant Voltage Drive	Application Range	Installation Method
B-1310a	300cm	8W/M	CRI 97	1.0mm	18cm	Lens PC/Aluminum Cap	Constant Voltage Drive DC12V	Shelf Cabinets	Layered Board Embedded

Installation Instructions **Note: Shelf depth minimum retraction 20mm (unit: mm)

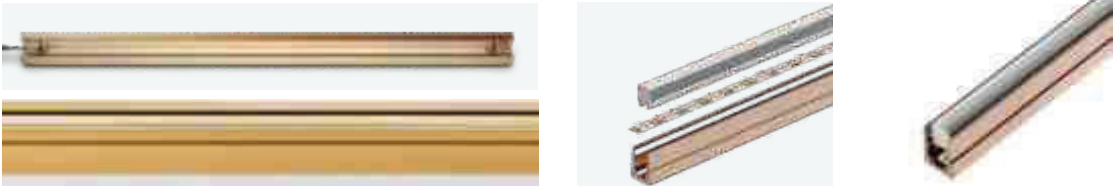

A-1408 8mm Glass Shelf

Optical Design/Color process

Research and development innovation

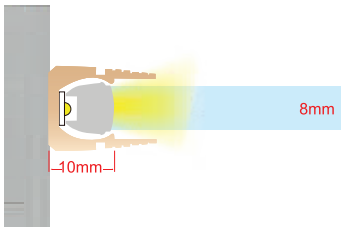

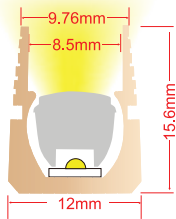

Functional Technology

Product Parameters *Note: Length can be customized according to requirements (maximum 300cm, can be cut arbitrarily)

Product Model	Product Size	Lamp Power	Color Rendering Index	Aluminum Material Thickness	Board Thickness	Accessory Matching	Constant Voltage Drive	Application Range	Installation Method
A-1408	300cm	8W/M	CRI 97	1.5mm	unlimited	Lens PC/Aluminum Cap	Constant Voltage Drive DC12V	Cabinets	Surface-mounted Snap/Adhesive

Installation Instructions **Note: Shelf depth minimum retraction 20mm (unit: mm)

B-Series | B-3614 18mm Layered Board Front Adjustable Angle

Optical Design/Color process

Research and development innovation

Functional Technology

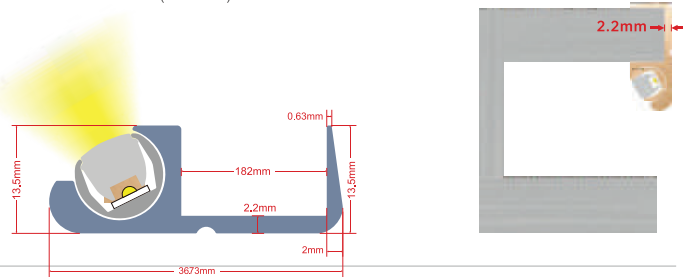

Product Parameters

*Note: Length can be customized according to requirements (maximum 300cm, can be cut arbitrarily)

Product Model	Product Size	Lamp Power	Color Rendering Index	Aluminum Material Thickness	Board Thickness	Accessory Matching	Constant Voltage Drive	Application Range	Installation Method
B-3614b	300cm	8W/M	CRI 97	2.2mm	18mm	Lens PC	Constant Voltage Drive DC12V	Shelf Cabinets	Laminate front clamp

Installation Instructions

**Note: Shelf depth minimum retraction 20mm (unit: mm)

B-B2813 Adjustable Cabinet light

Optical Design/Color process

Research and development innovation

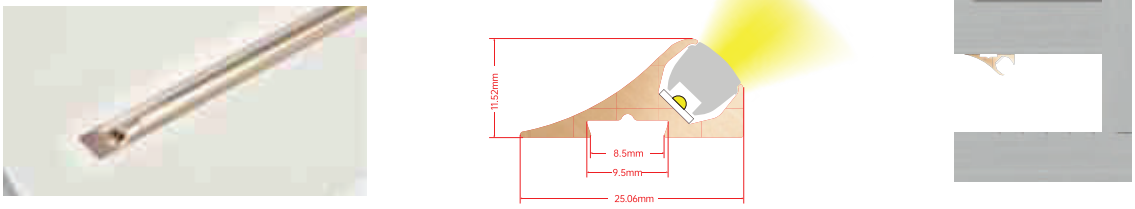

Functional Technology

Product Parameters *Note: Length can be customized according to requirements (maximum 300cm, can be cut arbitrarily)

Product Model	Product Size	Lamp Power	Color Rendering Index	Aluminum Material Thickness	Board Thickness	Accessory Matching	Constant Voltage Drive	Application Range	Installation Method
A-2511	300cm	8W/M	CRI 97	1.5mm	unlimited	Lens PC/Aluminum Plug	Constant Voltage Drive DC12V	Shelf Cabinets	Surface Mounting with Magnetic Adsorption

Installation Instructions **Note: Shelf depth minimum retraction 20mm (unit: mm)

A-1119 Cabinet back Light

Optical Design/Color process

Research and development innovation

Functional Technology

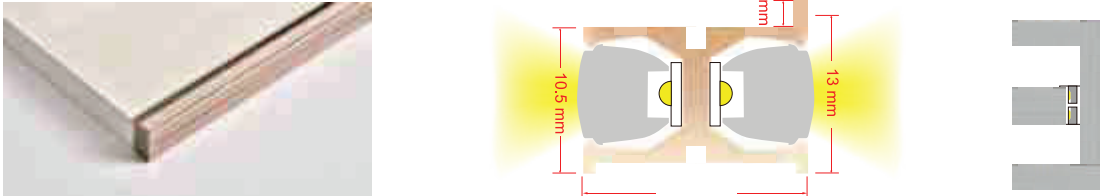

Product Parameters

*Note: Length can be customized according to requirements (maximum 300cm, can be cut arbitrarily)

Product Model	Product Size	Lamp Power	Color Rendering Index	Aluminum Material Thickness	Board Thickness	Accessory Matching	Constant Voltage Drive	Application Range	Installation Method
A-1119	300cm	8W/M	CRI 97	1.0mm	18cm	Aluminum Lens Cap	Constant Voltage Drive DC12V	Shelf Cabinets	Layered Board Rear Clip

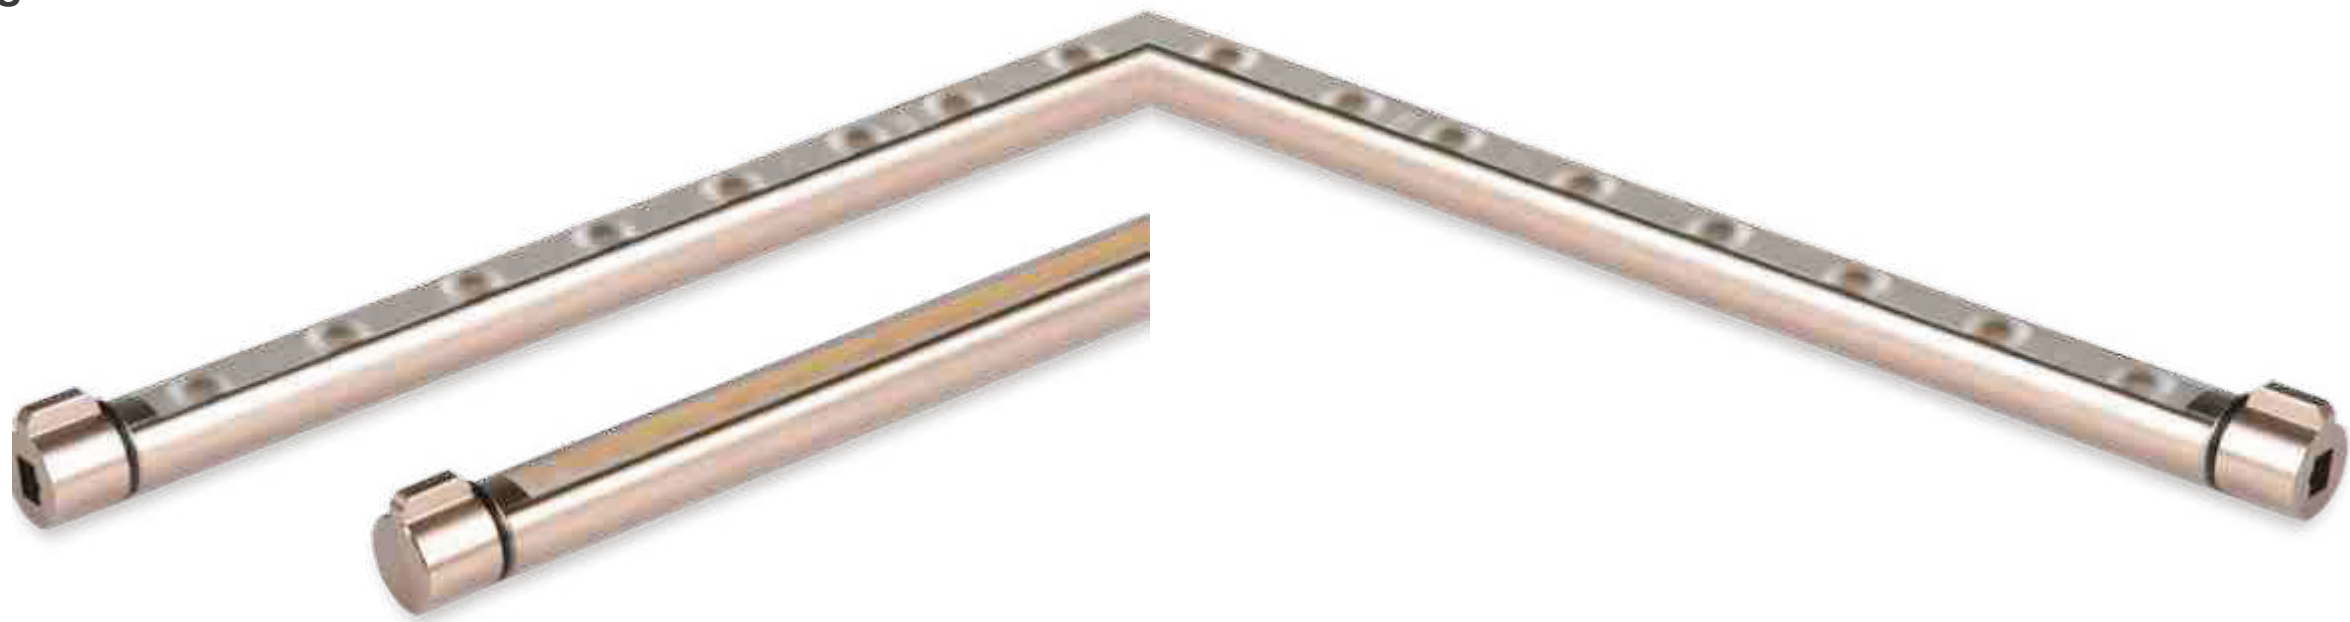

Installation Instructions

**Note: Shelf depth minimum retraction 20mm (unit: mm)

Phantom series

Flare series

① UGR Optics

Light Seen, Light Shown. With the innovation of fly-eye aesthetics lenses, it not only highlights the precise controllability of light spots but also solves the uniformity and transparency of light field scenes.

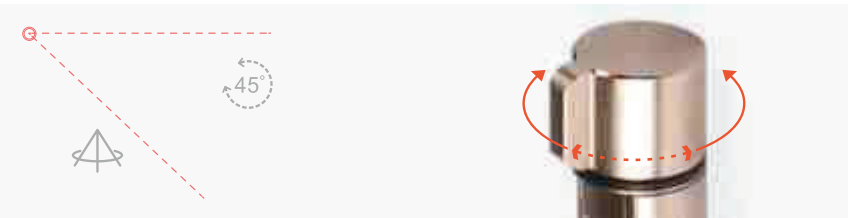

② The King of Light

High color rendering, wide color gamut, the charm of light shines. Creating features such as deep anti-glare, no glare, no shadows, etc., to escort healthy environments.

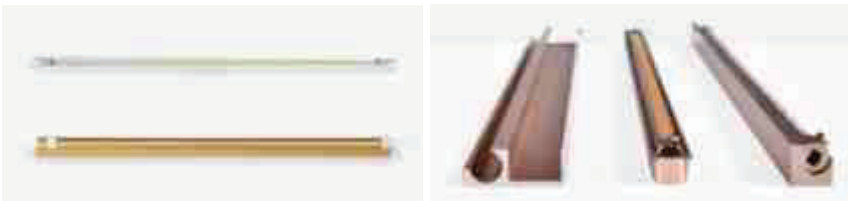

③ Chasing Light Angle Adjustment

Subversively created a more user-friendly application, realizing the dynamic chasing light angle adjustment effect. The product adopts aluminum texture die-casting, with exquisite texture and outstanding quality, solid and wear-resistant.

④ Versatile Combination

Gold and silver dual-color, can be freely matched according to the lighting method of the cabinet and the structure of various materials, stylish, elegant, creative, inside and outside, beauty is within reach.

① Flare series

Light seen, lamp unseen. The lens texture adopts a fly-eye relief design, achieving the pinnacle of optics perfectly, crystal clear, precise light control, and soft focus light effects.

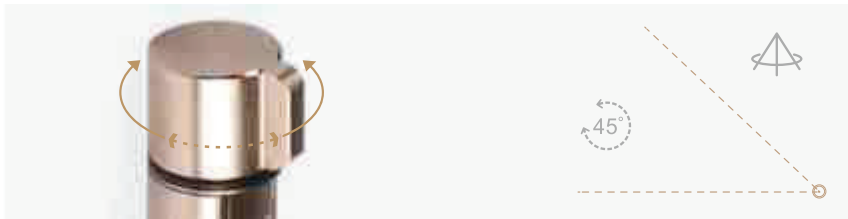

② Significant Light Efficiency

A new generation of optical masterpiece, enriching the rendering hierarchy of focused lighting, applications of multiple color temperatures, allowing light and shadows to reflect colors pleasingly, dazzling without glare, creating an extraordinary atmospheric feeling.

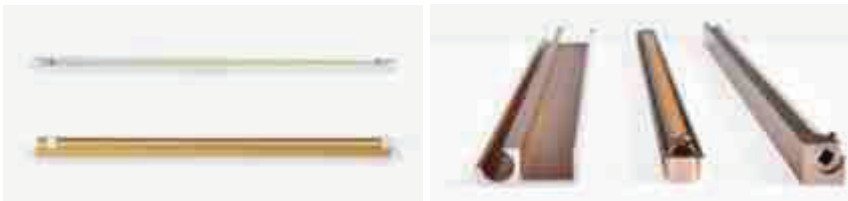

③ Flexible Angle Adjustment

Inspiration, light follows the scene. Designed with freely adjustable angles, crafted only for high-end demands. Made of aluminum die-casting, with delicate texture, leading craftsmanship quality.

④ Versatile Combination

Gold and silver dual-color, can be freely matched according to the lighting method of the cabinet and the structure of various materials, stylish, elegant, creative, inside and outside, beauty is within reach.

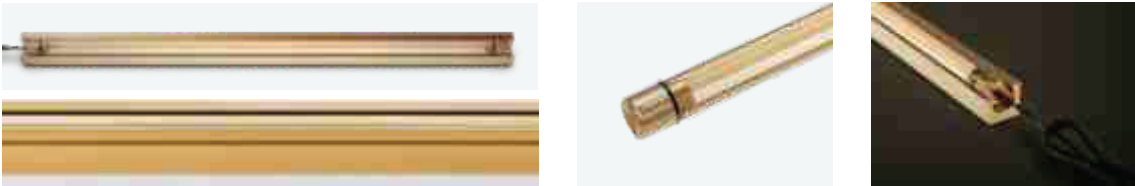

B Series | B-1515 Surface-mounted Triangular Adjustable Angle

Optical Design/Color process

Research and development innovation

Functional Technology

Product Parameters

*Note: Length can be customized according to requirements (maximum 300cm, can be cut arbitrarily)

Product Model	Product Size	Lamp Power	Color Rendering Index	Aluminum Material Thickness	Board Thickness	Accessory Matching	Constant Voltage Drive	Application Range	Installation Method
B-1515a	300cm	8W/M	CRI 97	1.5mm	unlimited	Lens PC/Aluminum Cap	Constant Voltage Drive DC12V	Cabinets	Surface-mounted Snap/Adhesive

Installation Instructions

**Note: Shelf depth minimum retraction 20mm (unit: mm)
